

LECTURER'S VITAE

IAEA-ARGONNE TRAINING COURSE

Name: William B. Kennedy

Present Position: Project Manager

Affiliation: U.S. Nuclear Regulatory Commission

Address: 11555 Rockville Pike
Mailstop O-12D20
Rockville, Maryland 20852

Phone Number: 1-301-415-2784

Fax Number: 1-301-415-2222

E-mail Address: William.Kennedy@nrc.gov

Scope of Present Duties:

My present duties include coordinating safety reviews of license renewal applications for research reactors, supporting international conferences and workshops as a U.S. delegate or IAEA expert, and developing U.S. NRC guidance documents related to licensing medical isotope production facilities.

Most Relevant Past Experience:

My past experience includes lecturing at U.S. Department of Energy, U.S. NRC, and IAEA workshops on preparation and regulatory reviews of safety analysis reports, aging management, inspection programs, fuel technology, radioactive waste disposal, regulatory framework, and license renewal reviews for research reactors. I Completed 5 license renewals for research reactors, including managing technical support contracts, interfacing with licensees, performing independent analysis of reactor safety, preparing environmental assessments, coordinating with other government agencies, communicating regulatory decisions to advisory boards, and issuing safety evaluation reports and licenses.

Educational Background:

Bachelors of Science in Nuclear Engineering, Massachusetts Institute of Technology
U.S. NRC Licensed Reactor Operator
