#### Scope of Present Duties:

Head of department responsible for management system governance, oversight and document and records management. This covers 3 licence conditions, all 36 processes required for nuclear generation and management system oversight activities.

#### Most Relevant Past Experience:

##### Quality Management

Worked in and closely with Quality departments and regulatory bodies in the Aerospace, Nuclear and Defence industries to monitor compliance, identify risk areas, develop improvement initiatives, agree and implement short, medium and long term strategies for control and governance of internal and external processes. Managed cross functional change management working groups to focus on process improvements through stakeholder management, development of processes and subsequent changes to working practices.

#### Educational Background:

MSc & BEng from UK university
