#### Scope of Present Duties:

- To assist the IAEA Members States in enhancing the safety of their research reactors, through the application of the provisions of the Code of Conduct on the Safety of Research Reactors and relevant IAEA Safety Standards and the implementation of the recommendations of safety review missions (INSARR).
- To provide support to Member States embarking on a new research reactor project and assist them in establishing the necessary technical and safety infrastructures, including the regulatory infrastructure.

#### Most Relevant Past Experience:

- Nuclear reactor physics, safety of research reactors, safety of fast neutron reactors and nuclear propulsion reactors.

#### Educational Background:

- Baccalauréat Scientifique, Secondary School, Lebanon, Beirut (1968)
- License d'Enseignement de Physique (Teaching Licence in Physics), Lebanese University, Beirut (1972)
- Attestation d'Etudes Approfondies en Physique Théorique (Advanced Study Diploma in Theoretical Physics), Mathematical Study Centre, Beirut (1973)
- Certificat d'Aptitude à l'Enseignement Secondaire (Capacity Certificate for teaching), Lebanese University, Beirut (1973)

- Diplôme d'Etudes Approfondies (Advanced Studies Diploma), Reactor Physics, Paris XI University, Orsay Centre, France (1974)
- Doctorat Troisième Cycle, Physique des Réacteurs (Third Cycle Doctorate, Reactor Physics), Paris XI University, Orsay Centre, France, 1977.
- Doctorat d'Etat, Physique Nucléaire (Ph.D in Nuclear Physics), Paris XI University, 1980.
