

# **Training Course on Leadership and Management for Introducing and Expanding Nuclear Power Programmes**

**6-17 August 2012**

IAEA/Argonne  
Training Course on  
Leadership and Management for Introducing and Expanding Nuclear Power Programmes

**Tom Ewing**

**Nuclear Engineering  
Associate Division Director**

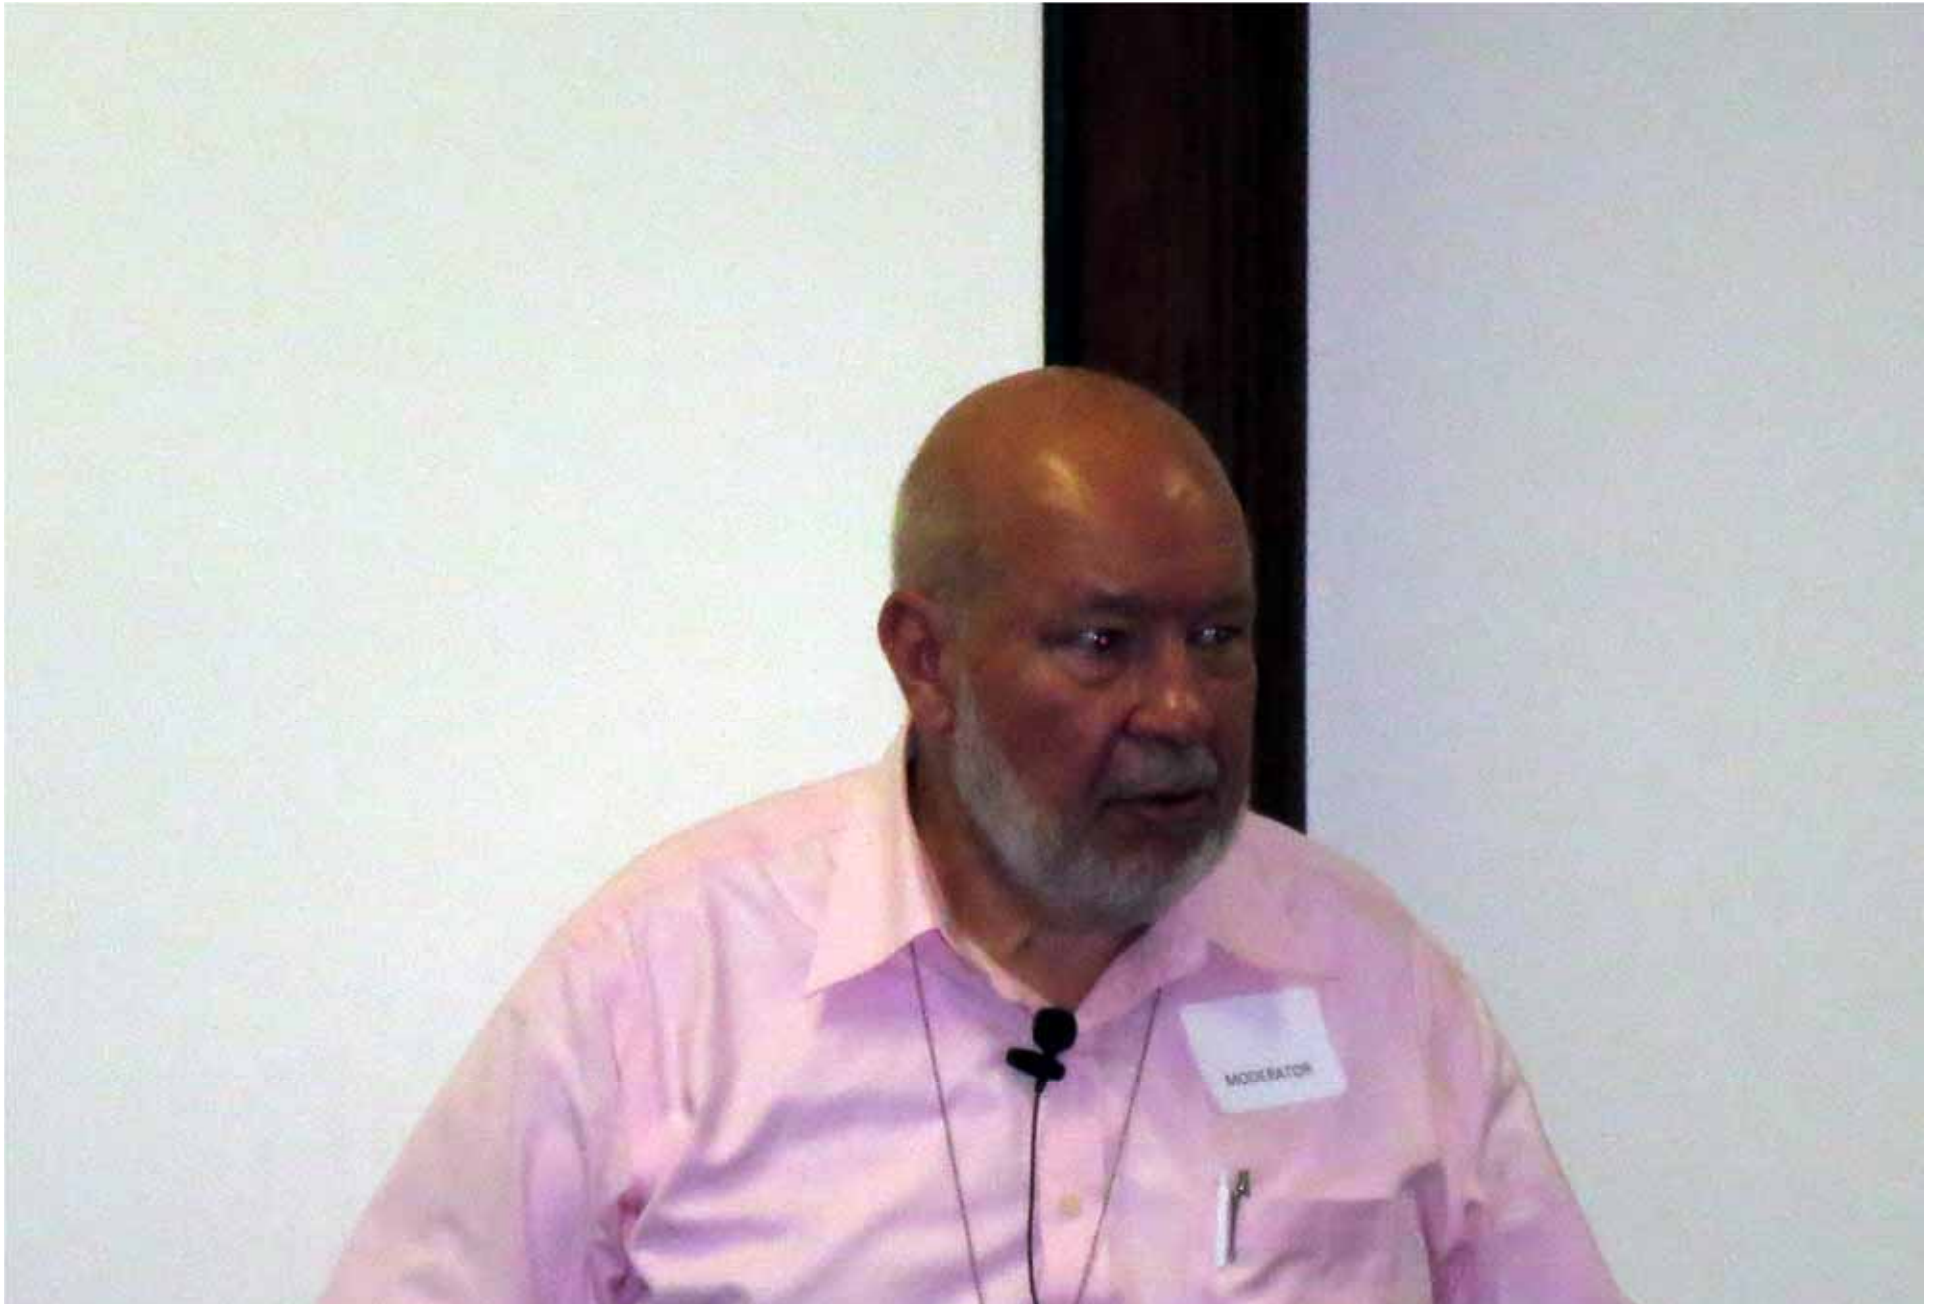

**Thomas Kekelik**

**Vincent Nkong Njock**

**Joseph Braun**

**Richard Cirillo**

Crack Growth, Residual Flux and Residual Stress

- Microstructural Grain Analysis
  - Microstructural analysis is a function of the geometry of the grain structure and the grain boundary orientation. The orientation of the grain boundary is an important factor in the crack growth rate.
  - Microstructural analysis is a function of the grain boundary orientation and the grain boundary orientation.
  - Microstructural analysis is a function of the grain boundary orientation and the grain boundary orientation.
  - Microstructural analysis is a function of the grain boundary orientation and the grain boundary orientation.

TO  
POWERIA

**Halil Avcı**

**Time For A Break**

# Gordon Biersch

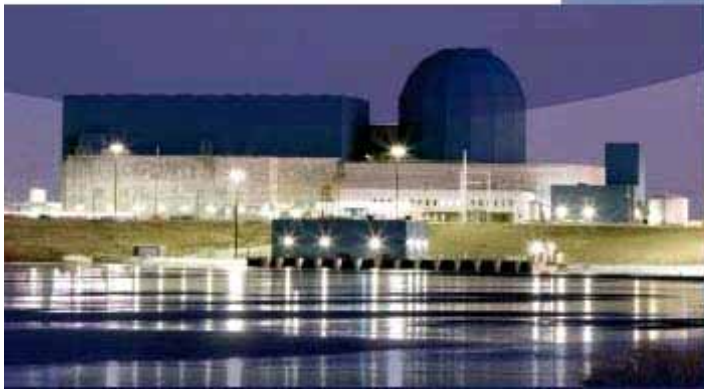

Sargent and Lundy

# POWERIA

## EXERCISE

## GEN-ELEC TASKS

Define a strategy and implement

- Siting activities siting options considering the needs for power,
- site characteristics,
- transmission lines,
- transportation etc

Preparation for final completion of...

A celebratory graphic featuring several white-frosted cupcakes with colorful sprinkles and a pink flower-shaped decoration. The cupcakes are arranged around a central white rectangular area. This area is framed by a gold star garland and a gold ribbon. The background is a light purple and white patterned fabric.
