

Introduction to Physics and Administrative Aspects of Radiation Oncology for Administrative Staff 16-20 September, 2013

**IAEA-Argonne
Group Fellowship Training on
Introduction to Physics and Administrative Aspects of Radiation Oncology for Administrative Staff**

David Followill

Steven Frank

Background

- MD Anderson is part of a group of people who are “Making Cancer History”
- MD Anderson has over 20,000 employees – The Division of Radiation Oncology has 854 employees

Elfrida Bauer

ation treatment is the use of high energy ionizing radiation to eradicate cancer cells.
Some people think that you put the patient on the treatment couch and turn on the radiation but that is not true.

Radiation Therapy Education and Certification U.S.

The Practice Standards for Radiation Therapy

- Radiation therapists prepare for their role on the interdisciplinary team by successfully completing an accredited educational program in radiation therapy. Associate degree, and four-year baccalaureate degree programs exist throughout the United States. (JRCERT)
- Upon completion of a course of study in radiation therapy from an accredited program recognized by the American Registry of Radiologic Technologists (ARRT), individuals may apply to take the national certification examination.

A celebratory graphic featuring several white-frosted cupcakes with colorful sprinkles and a pink flower-shaped decoration. The cupcakes are arranged around a central white rectangular area. This area is framed by a gold star garland and a gold ribbon. The background is a light purple and white patterned fabric.
