nature company likely has well developed ideologies and myths about
en espoused philosophy and values can be an effective strategy for
implemented by mandating new thinking styles and behavior and
on to reward those who represent the future and model the way.
- This can be best defined as a planned change managed from
gy and human sides. It generally involves a heavy leadership
Underpinning this strategy is a philosophy that the system must
e leaders must use a socio-technical model for planning
ake anywhere from 5 to 10 years to fully realize the change.

and Leadership -- Jimmy Ross 1982
