

Derek Brown, PhD, FCCPM

Senior Medical Physicist, Adjunct Assistant Prof. Dept's of Physics and Astronomy and Oncology, Tom Baker Cancer Centre, University of Calgary

Dr. Brown received his B.Sc. from the University of Guelph in 1999 and his Ph.D. from the University of Western Ontario in 2003. He lived and worked in Zurich, Switzerland from 2004 to 2007, completing a two-year Radiation Oncology Physics residency program, at the same University Hospital Zurich, in 2007. Derek has been working at the Tom Baker Cancer Centre in Calgary, Alberta, Canada since 2008. He received his Fellowship in the Canadian College of Physicists in Medicine in 2012.

Derek leads the HDR and LDR brachytherapy programs at the Tom Baker Cancer Centre, is co-Director of the Graduate and Post-Ph.D. Certificate programs and supervises two excellent Ph.D. students. Derek also co-developed an online learning and competency certification program (www.rtp-learning-centre.ca).

Derek is also Chair of the Quality Improvement Committee at the Tom Baker Cancer Centre and is an active member of the AAPM's Working Group on the Prevention of Errors.
