**E-mail Address:** dlambert@greggservices.com

#### Scope of Present Duties:

Technical project officer for various nonproliferation and security programs, domestically and internationally, utilizing skills obtained from 37 years in all aspects of nuclear security. Training development and execution, physical protection, protective forces, and emergency management/planning are a few of the areas benefiting from my expertise. The development of new lines of business opportunities is also part of my Gregg portfolio.

#### Most Relevant Past Experience:

Senior Training Officer in the IAEA Division of Nuclear Security responsible for integration and coordination of Nuclear Security Education and Training activities within the IAEA Office of Nuclear Security. Point of contact for the IAEA effort to assist Member States to establish and sustain Nuclear Security Support Centres (NSSC) and maintain the NSSC Network on the IAEA's Nuclear Security Information Portal (NUSEC).

Provided technical support for various U.S. Department of Energy and U.S. Department of Defense international cooperation projects providing material control, protection, and accounting for nuclear weapons grade material in the Russian Federation (RF) and the Commonwealth of Independent States (CIS). Implementing insider protection measures as part of integrated security enhancements.

Previously managed nuclear weapon protection projects and long-term sustainability at Russian Ministry of Defense nuclear weapon storage sites (including Strategic Rocket Forces and Russian Navy sites). Project lead for developing three regional technical support centers for system sustainability (including training needs assessments and training development) in the RF for civilian and military use. Participated in the conduct of over 45 vulnerability assessments and a curriculum of training courses for nuclear weapon and fresh reactor fuel storage sites all across Russia.

**Educational Background:**
