Scope of Present Duties:

Work with Sarah Cannon Cancer Services, the Cancer arm for HCA, the largest healthcare system in US. Responsible for developing and implementing a comprehensive oncology service line for the Division of St. David's Healthcare in Austin, Tx. Ensure that the strategies, priorities and operations of all facilities are aligned and complementary across the system and meet the needs of the cancer patient during the entire continuum of care, driving profitable oncology service line growth, and improving operations in terms of quality and processes.

Most Relevant Past Experience:

Healthcare administrator with over 24 years experience in clinical operations including physician relations, staff and vendor relationships, budget development, process improvement, community service, organizational development, and healthcare administration including both inpatient and outpatient services. Experienced in operations, growth strategies, market development and program implementation. Worked in clinical operations at M D Anderson Cancer Center and Methodist Hospital in multiple roles including Operations Manager and Interim Director in Hospital Administration, Administrative Manager in Clinical Cancer Prevention and Management Analyst, Associate Director and Director in Radiation Oncology. Experiences included strategic planning, business development, financial management, information systems, data management, clinical research, billing and compliance and major capital expansion initiatives for design and construction of a Cancer Prevention Center, radiation treatment centers throughout metropolitan Houston and an 8 vault treatment center housed within the

Ambulatory Clinic Building. Built two Cancer Centers and worked with the International Office of Methodist Hospital to help build Cancer Program with Euromedic International in Poland and Bosnia.

Educational Background:

MS - Healthcare Administration, BBA - Management
