#### Scope of Present Duties:

Branch Chief of the Plant Support Branch, Division of Reactor Safety. Responsible for the oversight of the region-based inspection activities related to the physical security and emergency preparedness of light water reactors for the Midwest Region of the United States. The branch also frequently interfaces with other NRC offices and federal and state agencies in areas of mutual interest.

#### Most Relevant Past Experience:

- Branch Chief in the NRC Region III Division of Reactor Projects, where he provided inspection oversight to the Byron, Braidwood and Prairie Island Stations.
- Senior Resident Inspector at the Byron Station
- Resident Inspector at the Nine Mile Point and FitzPatrick Stations
- Reactor Engineer in Electrical Engineering Branch in the Division of Reactor Safety in NRC Region I.
- Reactor Electrician in the Navy's Nuclear Power Program

#### Educational Background:

Bachelor of Science in Electrical Engineering - Temple University, Philadelphia, Pennsylvania
